EXPERIENCE

Technical Lead

June 2023 – Present

Restech - UCR Housing Services

Riverside, CA

- Directed a team of 7 student workers while coordinating weekly schedules and scheduling in-person appointments in order to resolve resident and staff issues.
- **Reduced resident support tickets and email inquiries by 30%** by establishing and refining appointment scheduling, troubleshooting protocols, and documentation processes.
- Managed housing technology projects, using agile methodologies to oversee the entire life cycle from concept to execution, while ensuring seamless daily operations.

Business Analyst Intern

July 2024 – Sept 2024

Sthita Inc.

Dublin, CA

- **Reduced project turnaround times by 18%** by streamlining workflows and implementing new client procedures, allowing for greater efficiency and client satisfaction.
- Created dynamic dashboards in Tableau, presenting key performance indicators and visualizations to present data driven recommendations to assist in client decision-making.
- Identified key business insights and trends in client data, utilizing SQL to query sales performance data sets in Microsoft SQL Server.

Treasurer, Executive Board

May 2023 – June 2024

Highlander Gaming

Riverside, CA

- **Oversaw over \$5000 of cash transactions and sponsorships** from the UCR Associated Students Program Board and various companies, ensuring financial accuracy and positive cash flow.
- Partnered with local food establishments on club fundraising initiatives, **increasing club income by 20%** and fostering positive community engagement.
- Ensured timely and accurate fulfillment of sponsorship deliverables, building and maintaining strong relationships with stakeholders to cultivate trust and long-term partnerships.

PROJECTS

Premier Collegiate Practice League | *Excel, SQL*

June 2023 – July 2023

- Developed and managed a 50 member practice Esports league consisting of top ranked players from Riot Games' official College VALORANT Esports league.
- Tracked raw data from individual player statistics through Excel in order to **manage a centralized database**.
- Imported Excel data to SSMS and used **SQL queries to track consistencies with player tendencies and overall performance** for player development purposes.
- Managed daily operations, consisting of timed practice matches, data tracking, and matchmaking in order to provide a quality competitive experience outside of official league matches.
